PREFACE TO THE GENERAL INDEX

This Volume contains the entire general index to the Colorado Revised Statutes. It includes references to all statutory sections, the Constitution of the state of Colorado and the United States, and the rules of the Supreme Court of Colorado.

The general index has been prepared and published under the supervision of the Committee on Legal Services and the Office of Legislative Legal Services. The members of the Colorado Bench and Bar are encouraged to communicate any comments and suggestions they may have concerning the index to the Office of Legislative Legal Services, 091 State Capitol, Denver, Colorado 80203.

SHORT TITLES AND POPULAR NAMES

This volume contains a "Short Titles and Popular Names" section that has index entries for acts with statutory short titles and acts or sections with commonly used popular names. Acts that begin with the word "Colorado" will be found under the first word following "Colorado", and uniform acts will be found indexed under the first word following "Uniform". For example, the "Colorado Medical Treatment Decision Act" will be found indexed under "Medical Treatment", and the "Uniform Transfers to Minors Act" will be found indexed under "Transfers to Minors Act". Uniform acts are also located under the boldface heading "UNIFORM LAWS" in the general index.

WORDS AND PHRASES

This volume contains a "Words and Phrases" section that has index entries for words or phrases that are defined in statutory sections. If the word or phrase is defined in more than one statutory section, the index entries will indicate the different contexts in which the word or phrase is defined. Words that appear in numerous sections with generally the same definition, such as "person", and words that are defined solely for the purpose of abbreviating a term, such as defining "Department" to mean the department of Human Services, have not been indexed under "Words and Phrases".

GRANTS OF RULE MAKING AUTHORITY

This section entitled "GRANTS OF RULE-MAKING AUTHORITY" contains index entries for statutory sections that contain grants for rule-making authority. If authorization is granted in more than one statutory section, the index entries will indicate the different sections in which the authority is granted. Each executive department is listed and contains a listing for all the rule-making authorizations for that department. For example, the "Education, department of" will contain a listing for "Education, commissioner of" that lists the grants for rule-making authority for this position.

COMPARATIVE TABLES

This volume contains several tables located at the back of the volume. The first table is provided to assist users in locating sections renumbered when the statutes were reenacted for C.R.S. 73. The remaining tables are provided to assist users in locating provisions when whole bodies of law have been repealed and reenacted resulting in renumbering or in relocation of provisions. An explanatory note at the beginning of each table specifies the statutes treated in the table and provides instructions for use of the table.

EXPLANATORY NOTES

Boldface headings. The general index consists of an alphabetical listing of boldface headings, assembled from words and phrases used in statutory sections, constitutional provisions, and court rules. In addition, an effort has been made to use other phrases and terms, including acts by popular name and frequently used nonlegal terms. Boldface headings generally contain references to specific sections, constitutional provisions, and court rules and treat the subject matter exhaustively unless references are made to other boldface headings. For example, under the boldface heading "ARSON", the user should find all statutory sections, constitutional provisions, and court rules dealing with the topic of arson except those statutory sections relating to arson information reporting that have been indexed under "INSURANCE". The user is directed to the boldface heading "INSURANCE" through use of a cross reference.

Cross references. A cross reference directs the user of the general index to another boldface heading where that topic is generally considered or specifically indexed. For example, under the boldface heading, "ABDUCTION", there is a cross reference to the boldface heading "KIDNAPPING" where the topic of abduction is considered generally. As a further example, under the boldface heading "BAD CHECKS", there is a cross reference that directs the user to the boldface heading "CHECKS" where the topic of bad checks is indexed in detail. Sometimes the cross reference will include a general reference to the statutory sections where the topic is found in the Colorado Revised Statutes along with a cross reference to the boldface heading where the user will find a detailed index of those statutory sections. For example, under the boldface heading "NO FAULT INSURANCE", the user is provided with a reference to the general statutory sections concerning no fault insurance (sections 10-4-701 to 10-4-726) but is also directed to the boldface heading "MOTOR VEHICLES" where those statutory sections are indexed in detail.

Internal cross references. An internal cross reference generally directs the user from one subheading to another subheading within the same boldface heading. For example, under the boldface heading "LABOR" and under the subheading "Eight-hour day", the user is directed to the subheading "Hours of labor" to find index entries that deal with that topic either generally or specifically. An internal cross reference may also direct the user from one topic to another topic within the same subheading. For example, under the same boldface heading "LABOR" and under the same subheading "Hours of labor", the user is directed for the topic "Hazardous occupations" to the topic "dangerous employment" under that same subheading "hours of labor".

Rules of the Supreme Court. Index entries for the rules of the supreme court have been incorporated in the general index so that the user is provided with both the statutory sections and the court rules applicable to a particular subject. The following citations for the court rules have been utilized in the general index:

C.R.C.P. refers to the rules of civil procedure, including the rules of county court civil procedure, rules of procedure for small claims courts, and the rules of procedure regarding lawyer discipline.

Canon refers to the code of judicial conduct.

COMPARATIVE TABLE FOR C.R.S. 1963 TO C.R.S. 1973

The left-hand column of this table lists the section number of a statute as it appeared in C.R.S. 63. The right-hand column lists the section number as it appeared in the original version of C.R.S. 73 except as noted below.

For statutes that were repealed, moved, or changed subsequent to placement in the original version of C.R.S. 73 through 1991, a note to that effect has been placed following the specific statute entry. For example, the entry "3-4-1.....24-30-402" followed by the note "Subject Matter Changed, L. 81" indicates that section 3-4-1 from C.R.S. 63 became section 24-30-402 in C.R.S. 73, but the subject matter was changed in 1981. Similarly, the entry "3-4-7.....24-30-408" followed by "Subject Matter Similar to 24-30-401, L. 81" indicates that section 3-4-7 from C.R.S. 63 became 24-30-408 in C.R.S. 73, but similar provisions are now contained in section 24-30-401 as the result of amendments made in 1981.

If an entire body of law was rewritten resulting in the relocation of subject matter or repealed since the original publication of C.R.S. 73 through 1991, a note to that effect will precede the entries for those provisions.
